

AGYC Policies & Procedures

[As Revised September 2020]

Amendment to P&P 7.N. - Roads & Drainage Committee

(RED BOLD is new language; ~~red italics strikethrough~~ is deleted language)

7.0 Standing and Special Committees

N. Roads and Drainage Committee (Please see current Appendix F)

The AGYC goal is to:

- Maintain all AGYC-owned roadways in good order and free from hazards. This includes, but is not limited to, hazard repairs, snow and debris removal, road sweeping and elimination of on- the-road obstructions, striping, drainage and other conditions that affect the overall status of all roadways and adjacent right-of-ways.
- Provide road signage within AGYC that conforms to Federal and state standards established by the Manual for Uniform Traffic Control Devices (MUTCD).

The Committee will:

1. Provide recommendations for maintenance of:
 - a. Roads and right-of-ways,
 - b. Road signage, striping and lighting,
 - c. Drainage and culvert requirements,
 - d. Pruning and clearing to permit good vision at intersections and curves,
 - e. Driveway access across right-of-ways. (see diagram inserted)
2. Provide the GM with projected project schedules, pending Board approval.
3. Make recommendations to the Board for winter projects for the Maintenance Department.
4. Confirm to the B&A Committee that drainage plans include culverts on the right-of-way, consistent with the Construction Guidelines. Any drainage to the golf course or other AGYC common property, except road right-of-ways, must include a Drainage Easement (Appendix E).
5. Confirm to the B&A Committee that driveway plans are consistent with the Construction Guidelines.
